## **FOR IMMEDIATE RELEASE**

### **Delivering Insurance Services to the Cannabis Sector**

**MMD Insurance Services, the first general agency specializing in Cannabis and Hemp Industry Insurance delivers the coverage needs of a growing industry, offering specific commercial auto coverage.**

**Sacramento, CA (October 18, 2010)**—[Medical Marijuana Dispensary \(MMD\) Insurance Services](#) continually provides insurance service innovation to the growing Medical Cannabis industry. In response to the growing need of the Medical Marijuana Industry, MMD Insurance Services has developed commercial auto products designed to meet the needs of Medical Cannabis businesses involved in the delivery of cannabis-related products.

“With the help of our National carriers,” says Mike Aberle, MMD Insurance Services National Director, “we’ve begun to implement stronger safety protocols and standards, making the industry, as a whole, safer.” MMD Insurance Services can now offer commercial auto coverages with a \$1 Million combine single limit. “Offering commercial auto coverage is huge for this industry,” adds Aberle. “Too many cannabis industry businesses are operating without appropriate coverages and a loss, for a company using vehicles without the specified cannabis coverage, could be devastating.”

Businesses that fail to disclose to their insurance company the use of a vehicle for commercial purposes, and specifically the delivery of medical marijuana, run the risk of having their claims denied. “There are companies out there who will write policies for cannabis delivery use and are supporting the industry,” says Aberle. “Discounts are available for businesses with fleets, existing auto coverage and current general liability.”

Commercial policy options offered by MMD Insurance Services include hired and non-owned autos, for employees using their own vehicles for cannabis deliveries. MMD also maintains the ability to quote most insurance policies in under an hour, with phone quotes available to agencies upon request. “Coverage [for commercial delivery of medical cannabis] is more affordable than you might think,” posits Aberle. “Why wouldn’t you want to be covered in the event of a claim.”

#### **About MMD, Medical Marijuana Insurance Services**
